

# End Fed Half Wave Antenna

For 40M & 20M

## Tips:

Cut Wire longer then fold back on itself to tune for best SWR.

Use 2x Counterpoise Wires in a Inverted V.

Wire, Speaker Wire is better, strong and lightweight.

Height is Might, keep wires away from objects, such as wire fences, roofs etc.

Can run wire as Horizontal, Vertical or half and half.

Can run wire as a Sloper.

Biggest Tip. Get out and try.. Have fun.

## Tuning:

Always Cut Wire Longer, then either cut or better, Fold Wire Back on itself to shorten if needed.
